Dear Sir or Madam:

I writing to reques that the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I enjoy. I pay for the services provided by XM radio because I find them far superior to any of the land based and transmitted programs. Please do not allow the NAB's lobblists to interfere with what I am allowed to hear via XM radio.

Sincerely,

Dr. Steven Parr  
Stuart, FL
